ARTIKELDETAILS

The transformable HEYNER® MultiProtectAERO combines safety with comfort. Being one of the most light weight child car seats, he allows along with The unique, 1-2-3 FIX mounting a fast and easy handling during installation. Shock-energy absorbing materials and the 5-point adjustable head rest protect the sensitive head and torso of your child. The shoulder pads are connected to the 5-point safety belt in order to control horizontal displacement. With thought-through ergonomics, the HEYNER® MultiProtect AERO adapts perfectly to the needs of your child.

HEYNER® MultiProtect AERO child car seats guarantees: • Engineered in Germany according to ECE R44/04 regulation and strict requirement of ADAC-testing
